Breakfast Seminar: Data Back-Up and Recovery: Is Your Critical Data Safe?

on Thursday January 25, 2007 at the

Residence Inn by Marriott 7 LAN Drive, Westford, MA 01886 7:30am-9:30am - Breakfast Included (Arrive Early for Networking - Coffee and Breakfast will be served)

Please join us for this event! Data is the lifeline of your business. Are you confident that your critical data is being properly backed up? Did Hurricane Katrina cause you to worry about what would happen if a disaster struck your business? Are you worried about regulatory compliance? In a 2005 report, Gartner Research, Inc. reported that 50% of small and medium businesses experiencing major data failure (more than 24 hours) will go under!

In this workshop, we'll discuss the various methods necessary to protect your data, with an emphasis on data backup. Solutions ranging from simple to highly sophisticated will be covered, including Tape, DVD, Disk, and on-line approaches. Desktop, Network, and Server based approaches will be explored.

Special guest speakers:

David Spector, of Secure Strategies www.securestrategies.com who specializes in reducing security vulnerabilities of businesses while providing robust counter- measures to increase their security and safety.

Larry Shoer, Founder of Backlot Technologies www.backlottech.com, developer of a new intelligent Backup Appliance that meets the data backup needs of small business and the professional office

Ekaru provides computer and network support to small businesses in the greater Boston area. Everything including IT strategy, network security, fighting Spyware, training users, troubleshooting networking problems, and configuring back-ups... basically everything an IT department does for a big company. We help you get more from the technology you already have and tell you about the new things you need to know about!

Have you backed up your data today?

To get the most from the workshop, please bring your questions!
